PROFILE

Searching for that new PR for any distance up to the half marathon? The T6 Racer is just the ticket. The T6 weighs next to nothing, feels like an extension of your foot, and provides the right amount of protection to take you the distance.

MIDSOLE

- Rearfoot HydroFlow® ST

HYDROFLOW® | Dynamic viscous fluid units for heel and forefoot enhance midsole cushioning—attenuating shock with industry-leading dampening and comfort.

OUTSOLE

- HPR Plus
- Forefoot Hyper Pod Construction

HPR PLUS | A higher durability, abrasion-resistant rubber outsole compound that wears longer.

ENGINEERED HYPER POD CONFIGURATION | Midsole and outsole components are engineered to set the foot up in an efficient, balanced position from heel strike to toe-off, offering maximum stability and flexibility.

UPPER

- Air Mesh
- Synthetic Overlay Materials
