PROFILE

Make an eco-statement with the Green Silence. Each and every part in this groundbreaking shoe has a sustainable element, including soy-based inks and recycled materials. And in this case, “green” goes hand-in-hand with great performance. The Green Silence helps you take responsibility, and first place—with good karma to spare.

MIDSOLE

- Full-length BioMoGo

BIOMOGO—We’ve taken the long-lasting cushioning of our MoGo midsole and made it environmentally friendly. How, you ask? By adding a non-toxic, natural additive to the MoGo compound that encourages anaerobic microbes to munch away once it hits the landfill.

OUTSOLE

- HPR Green
- Forefoot Hyper Pod Construction

HPR GREEN—This durable and long-wearing outsole compound is made with dispersed silica, resulting in premium wet-dry traction for excellent skid-resistance and a more environmentally friendly composition.

ENGINEERED HYPER POD CONFIGURATION—Midsole and outsole components are engineered to set the foot in an efficient, balanced position from heel strike to toe-off, offering exceptional flexibility and unrestricted forefoot ride.

UPPER

- Moisture-managing Element Mesh
- Synthetic Overlay Materials

ELEMENT—Upper technology featuring superior microfiber construction to provide weather protection in a light, supple, quiet fabric that doesn’t sacrifice breathability, durability, or comfort.
